MODERN AND SIMPLE

Through the simple and plain appearance, Kellas sanitary appliances are perfectly integrated into the art of life. Organic form is displayed on the entire line, the supreme grade is refined in modeling, and smooth curves and dynamic form allow people think it has become part of family.

Elegant design builds into quality. The development of sanitary appliances has been inspired by organic forms of nature; this basin type cock has a coordinated curve, and the elegant edge and beautiful surface sublimates the artistic conception of life while deepening the art of home furnishing.

Simple lines describe interest and charm. Both the contrast of material quality and the application of lines create a modern and simple space. The gloss of metal and the luster of ceramics embody modern fashion's pursuit of simplicity. Maybe only this style of tap can suit the whole space.
